interact Landmark

Make your landmark shine, with a swipe on your smartphone

Interact Landmark Scene management – for smartphone, tablet and PC

Light up the spirit of your city

Create an appealing city identity, build civic pride and attract tourists by illuminating your buildings, monuments and bridges. Monitor dynamic architectural lighting assets and manage scenes using Interact Landmark software and system. We make it easy to create and trigger light shows from anywhere, while simplifying maintenance to protect your investment.

Scene management just got better

Interact Landmark Scene management is expanding its capabilities with the addition of the content app: a cloud-based app that enables businesses to quickly and effortlessly change architectural lighting.

- Remote content management: remotely change your landmark's lighting to suit any occasion

- Cloud-enabled: securely access the app via smartphone, tablet or PC – without the need for a company network or VPN

- Color picker/white picker: choose any color or shade of white and apply it to the entire site or specific sections

- Trigger preprogrammed shows and scenes instantly at the touch of a screen

- Multisite content management: manage multiple installations, and trigger them simultaneously from anywhere in the world via 'virtual buttons'

- Calendar schedules: view when scenes and shows are scheduled

- Flexible user management: create custom user profiles with access privileges, for any particular site and with specific feature permissions

Secure and simple connectivity

Securely access the content app with your smartphone, tablet or PC, from anywhere in the world using an internet connection. The content app is compatible with Interact Landmark, which has been installed on many famous landmarks around the world.

Scene management software uses VPN tunnels, SSH, MQTT, HTTP and advanced encryption techniques, meeting top cyber security standards. Additionally, you can customize user profiles and manage access privileges for total peace of mind that your lighting is secure.
